

Security Policy for the Endorsement and Operation of Virtual Machine Images

Document control

Area	ISM
Policy status	FINALISED
Owner	David Kelsey
Approvers	EGI Foundation Executive Board
Approval status	APPROVED
Approved version and date	v4 10 Oct 2016
Statement	This document describes the security-related policy requirements for the generation, distribution and operations of virtual machine (VM) images, as part of a trusted computing environment of the IT infrastructure. The aim is to enable VM images to be generated according to best practices and to be both trusted and operated elsewhere.
Dissemination Level	TLP:WHITE - Public
Next policy review	together with process review
