

# Dissemination Activities

The table will cover all dissemination activities undertaken by the tasks/work packages. Keeping this table up to date will facilitate all downstream reporting activities.

## Types of activities:

*Please select from:* Presentation - Invited keynote - Panel discussion - Journal paper - Conference paper - Poster - Training event - Webinar - Blog post - News item - Newsletter article - Publication - Interview - Exhibition booth - Other (please specify)

**Related project result:** all activities should be linked to a project result. WP3 will produce a full catalogue of project results. While we don't have one, please select an item from the [expected project results table](#).

## List of KERs to choose from:

KER\_external\_services; KER\_SMS; KER\_RoP; KER\_internal\_services; KER\_DIH; KER\_business\_models; KER\_marketplace; KER\_interoperability; KER\_training.

## Type of audience:

*Please select from:* Existing User Communities (e.g. our competence centres) - Resource Providers - Scientific Community (prospective users) - SMEs and Industry - Civil Society - Policy Makers - Funding Agencies - EOSC-hub partners - Media - Other (please specify)

This page is harvested regularly and older entries are harvested in a separate [google spreadsheet](#).

WP9 dissemination activities collected here: [WP9 Dissemination](#) (contains all activities added up to 31 Dec 2019)

Looking for [templates and logos](#) to use for dissemination activities? See the [Communication Toolkit](#) page!

## Detailed instructions

| Related project result / KERs - choose from the above list        | Type of activities | Task #      | Title                                                         | EOSC-hub contact (presenter, author,...) | Start Date (YYYY-MM-DD) | End Date (if relevant) | Outlet / Name of event            | Location (if applicable)        | Type of audience                                                   | Estimated Reach                                               | Scale     | Link                                                                                                                                                                      |  |  |
